MINIMALLY INVASIVE AND ROBOTIC SURGERY

Directors: **Carlos Vaz, Keith Kim, Jacques Himpens**

In the field of General Surgery, the most relevant of technical developments in the last 100 years has been the emergence of minimally invasive surgery in the 80s of the twentieth century.

The symposium MINIMALLY INVASIVE AND ROBOTIC SURGERY, included in the 1st edition of the Espírito Santo Saúde clinical congress – Leaping Forward – Lisbon International Congress –, aims to bring together the most experienced and renowned laparoscopic and robotic surgeons of the world in a high quality, state-of-the-art conference.

This symposium is an exclusive forum driven by the aspiration of spread cutting edge technical evolution on the subject of minimally invasive and robotic surgery.

Indeed, despite the great advances that have been made - almost all surgical procedures on several fields, including surgical oncology, are entirely performed with advantage by minimally invasive surgery in centers of excellence - the spread of this technical progress is insufficient.

The meeting will be interactive in nature, with a diversified but restricted (by invitation) local audience, promoting a dynamic debate on the different subjects; streaming to national medical schools and doctors in other locations throughout the world; and **live surgery**.

Unprecedented in focus and depth, the conference will develop the topics of greatest interest for the general surgeon: colorectal surgery, with particular emphasis on rectal cancer, bariatric and metabolic surgery, hepatobiliopancreatic surgery and thyroid surgery.

LEAPING FORWARD

LISBON INTERNATIONAL CLINICAL CONGRESS

ESPÍRITO SANTO SAÚDE

13-14
FEB 2014

> 13 FEBRUARY 2014

> AUDITORIUM 2

8:15 AM Opening & registration

8:30 AM Welcome and introduction
Carlos Vaz [PT]

Colorectal surgery

9:00 AM A novel hybrid approach for large colorectal polyps removal: Laparoscopic assisted colonoscopic polyps removal
David Serra [PT]

9:15 AM Rectal cancer: Surgical anatomy
Carlos Vaz [PT]

9:30 AM Local treatment of low rectal cancer: The role of contact radiotherapy (brachytherapy)
Jean-Pierre Gérard [FR]

9:50 AM Trans anal minimally invasive surgery for rectal cancer (TAMIS) – A new approach
Angelita Habr-Gama [BR]

10:10 AM Robotic rectal cancer surgery
Advantages over laparoscopic and open surgery
Personal experience
Technique: Details and pitfalls
Seon-Hahn Kim [KR]

10:40 AM Discussion
Moderators: José Damião Ferreira [PT] | Rui Maio [PT] | Francisco Mascarenhas [PT]

11:00 AM [Coffee break]

Robotic thyroid surgery

11:30 AM Robotic assisted thyroid surgery by axillary approach: Postoperative and cosmetic outcomes
Ronald B. Kuppersmith [USA]

12:00 PM Discussion
Moderators: Olímpia Cid [PT] | Miguel Allen [PT] | António Garrão [PT]

LEAPING FORWARD

LISBON INTERNATIONAL CLINICAL CONGRESS

ESPÍRITO SANTO SAÚDE

13-14
FEB 2014

> 13 FEBRUARY 2014

> AUDITORIUM 2

Master lecture

12:15 PM From the world first robotic operation to the present. Towards the future
Ramon Vilallonga Puy [SP]

12:45 PM [Lunch]

Live surgery

1:30 PM Session 1 [two operations]
Moderators: António Torres [SP] | Nilton Kawahara [BR]

LRYGB

Almino Ramos [BR]

Robotic RYGB

Keith Kim [USA]

3:00 PM Session 2 [two operations]
Moderators: José Damião Ferreira [PT] | Rui Maio [PT]

Robotic anterior rectal resection

Seon-Hahn Kim [KR]

Laparoscopic assisted colonoscopic polyp removal

David Serra [PT]

Carlos Vaz [PT]

4:30 PM End of first day

LEAPING FORWARD

LISBON INTERNATIONAL CLINICAL CONGRESS

ESPÍRITO SANTO SAÚDE

13-14
FEB 2014

> 14 FEBRUARY 2014

> AUDITORIUM 3

Bariatric and metabolic surgery

- 8:00 AM** Long term outcomes: an experience of 10.000 cases over the last 15 years. What should we expect?
Almino Ramos [BR]
- 8:20 AM** GERD surgery after Roux-Y gastric bypass: Personal experience
Nilton Kawahara [BR]
- 8:30 AM** Implementing a robotic bariatric program in Brazil: A unique experience
Almino Ramos [BR]
- 8:45 AM** Laparoscopy vs Robotics
The case for Laparoscopy
Antonio Torres [SP]
The case for Robotics
Keith Kim [USA]
- 9:15 AM** Redo bariatric surgery: The role of robotics
Keith Kim [USA]
- 9:35 AM** Discussion
Moderators: Mário Nora [PT] | Rui Ribeiro [PT] | Paulo Roquete [PT]
- 10:00 AM** [Coffee break]

Hepatobiliopancreatic surgery

- 10:30 AM** Robotic HBP Surgery - An overview
Pier Cristoforo Giulianotti [USA]
- 10:50 AM** Hepatic Resection - Where we are, how far can we go
Pier Cristoforo Giulianotti [USA]
- 11:10 AM** Robotic duodenopancreatectomy - The present and the future
James Moser [USA]
- 11:30 AM** Discussion
Moderators: Francisco Castro e Sousa [PT] | José Costa Maia [PT] | João Rebelo Andrade [PT]
José António Pereira [PT]
- 12:00 PM** [Coffee break]

Edited videos session

Presenters to be confirmed

- 12:30 PM** Discussion
Moderators: Hans Eickhoff [PT] | César Resende [PT] | Carlos Ferreira [PT]
- 2:00 PM** Closure
- 2:30 PM** [Lunch]
