

Prof Pier C Giulianotti MD FACS
Lloyd M Nyhus Chair in Surgery
Vice Chair Department of Surgery
Division Chief, General Surgery

Robotic Liver Resection Training Course

June 2-4, 2019 UIC - Chicago

Day 1: Working dinner

- Robotic liver surgery State of the Art
- Video presentation: "Liver surgery tasting menu"

Day 2: Lectures and animal lab

- 7 a.m. Breakfast and discussion
- 8 a.m. – 12:30 p.m. Lectures:
 - Robotic oriented liver anatomy
 - OR set up
 - Port placement/cart positioning
 - Robotic liver surgery instrumentation
 - Patient preparation
 - Robotic liver surgical technique

-12:30 - 1 p.m. Lunch

-1 - 4 p.m. Animal Lab:

1. Cholecysto-Jejunostomy
2. Parenchymal transection techniques
3. Harmonic handling in robotic surgery
4. Treatment of liver surface cut/bleeding control
5. Cholecystectomy

Day 3: Robotic Hepatectomy Case observation

7am -

1. Case presentation and discussion
2. Live surgery with interactive discussion
3. Course closure

*Agenda for additional courses coming up soon.

A series of robotic surgery training courses lead by robotic expert surgeon Dr. Giulianotti, celebrating his 20 years of robotic experience, will be offered this year:

- Robotic liver resection course: June 2nd - 4th
- Robotic hernia repair course: September 22nd – 24th
- Robotic upper GI surgery course: October 20th-22nd

Private training courses tailored to meet individual needs can also be arranged upon request. In addition, robotic-assisted transplant surgery training can be offered by our transplant team, led by Dr. Enrico Benedetti and Dr. Ivo Tzvetanov. In partnership with

Cost: \$4500 / Surgeon
Maximum attendance: 8 surgeons

Hosted by the Division of General, Minimally Invasive and Robotic Surgery & the Surgical Innovation training Laboratory at the University of Illinois at Chicago

In partnership with
